ROCHESTER, N. Y.

PEONIES—IRISES—PERENNIALS

Edulis Superba, the beautiful

The exquisite beauty of the better varieties of Iris

Are not the old-fashioned flowers the best after all?

THOROUGHBRED PEONIES

We wish all who receive this catalogue could have attended the Peony Show at Convention Hall, Rochester, in June. There were many varieties of our large collection exhibited. Thousands of blooms representing hundreds of varieties were artistically arranged about the Hall and the effect was one long to be remembered. What flower is more beautiful than the Peony? We have selected the following 6 varieties as a superb collection for the amateur gardener. Here are 6 that will give a world of pleasure next June, if you plant this Fall—all bound to bloom.

Festiva maxima, pure white,
Edulis superba, mauve-pink,
Mme. Calot, pale hydrangea-pink,

Felix Crousse, brilliant red,
Pres. Roosevelt, deep red,
La Tulipe, blush white.

These 6 thoroughbreds in strong clumps, 3-5 eyes for **\$5.00**.

IMPERIAL JAPANESE IRIS

Fall is the Time to Plant Iris for Best Results

Could one ever forget the striking beauty of the Iris? Plant them generously—suited to all locations. The following 6 varieties are aristocrats.

Commodore Perry, dark violet red,
Painted Lady, white richly suffused and striped with bright pink,
Mrs. Harding, cerulean blue with golden center from which radiate clear white lines,

Mahogany, Purpled mahogany-red,
Purple and Gold, rich violet-purple with white petaloids tipped violet,
Royal Purple, dark purple overlayed with dark blue; yellow blotches.

We offer the above 6 exceptional varieties for **\$3.00**.

JUST FLOWERS

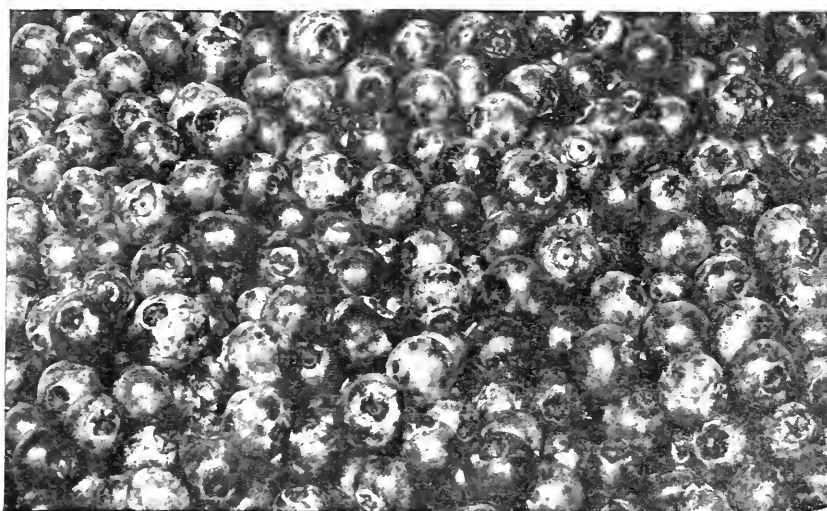

And lots of them

Cut flowers continuously from June until October. We have selected the following 6 varieties of choicest perennial plants. Four plants of each variety for a small garden. They require little space, but give an abundance of bloom. We offer for Fall planting this out-of-the-ordinary collection of 24 plants in extra strong clumps that will bloom profusely next summer, for only **SEVEN DOLLARS**. You can't beat it.

No. of Plants	Varieties	Colors	Blooms	Height
4	Boltonia Asteroides, (False Chamomile)	White	July, Aug., Sept.	5-7 feet
4	Bocconia Cordata, (Plume Poppy,)	Creamy white	July, Aug.	6-8 feet
4	Lychnis Chalcedonica, (Champion Flower)	Vivid Scarlet	July, Aug.	3 feet
4	Siberian Iris	Violet blue	June	3 feet
4	Pentstemon Barbatus (Beard Tongue)	Scarlet	June, July, Aug.	3 feet
4	Rudbeckia purpurea (Cone Flower)	Purple	July, Aug., Sept., Oct.	3 feet
— 24				

BLUEBERRIES—LOGANBERRIES—RHUBARB

Before Spring, stock which has been planted in the Fall gets well established in its new position and so gets an early start, and makes a large growth the first season, while STOCK PLANTED IN THE SPRING LOSES CONSIDERABLE VALUABLE TIME IN GETTING ESTABLISHED IN ITS NEW QUARTERS. PLANT THIS FALL.

Just add sugar, a very little sugar—and cream

Quarts and quarts of Loganberries picked at our Nursery this Summer

One stalk enough for one pie

BLUEBERRIES

The Fruit par-Excellence

Millions of dollars' worth of blueberries are sold every year. Practically all of them are gathered from swamps, hillsides and wild pastures where they grow without human aid. Today it is a comparatively easy matter to provide for your own wants in your own garden. Grown as easily as currants or raspberries, the bushes are never more lovely than just before the berries are ready to pick. The indescribable blue of the ripe berries and the pink of those that are ripening, create a charming contrast. The bushes have no thorns and the berries being firm, there is no soiling of the hands or injury to the most delicate apparel—clean, beautiful, fruit supremely delicious. Blueberries with cream, blueberry pie, nothing quite so delicious.

Price:—Strong bushy plants, balled and burlapped, \$2.00 each; \$20.00 per 12.

LOGANBERRY—ROCHESTER GROWN

A Famous Berry

We remember our first taste of Loganberry. That first taste was worth the price that we are charging you today for one dozen fine, big, fruiting plants.

If you have ever eaten Loganberries you will surely want a few of these plants growing and fruiting in your own garden; if you have never tasted them—well, you have something coming.

A great novelty. Fruit $1\frac{1}{4}$ inches long.

Eight tons of fruit from an acre of ground is not an uncommon yield, while a dozen plants supply the wants of a whole family.

The fruit is larger than the largest size Blackberry; is of the same form and shape; color, when fully ripe, bright red, deepening to maroon. It partakes of the flavor of both the Blackberry and the Raspberry, having a very mild, pleasant, vinous flavor, delightful to the taste, and not found in any other fruits.

It is excellent for the table, to eat fresh or stewed, and for jelly or jam is without an equal. The canes are enormous bearers, and the fruit commences to ripen early.

We offer but a few thousand plants. These are strictly of our own growing right here in the vicinity of Rochester, and while the supply lasts we will fill orders at \$6.00 per dozen, \$45.00 per hundred.

BURBANK'S GIANT CRIMSON RHUBARB

Rhubarb—Pie Plant—whatever you wish to call it, there is nothing like it for pie and sauce—it's healthful too—.

Extra large, of fine bloom, and crimson clear through, this new variety of appetizing "pie-plant" should be in every garden and will be when known. Plant a few this Fall along beside that you now have growing in your garden and note the difference. BURBANK GIANT CRIMSON is superior in size and quality to any variety we have ever tasted. It is an early variety, without being in the least tough or stringy, with a mild sub-acid flavor. Largest and best of all for market or home use.

Plant this Fall in good garden soil, manure well, and have delicious pie and sauce in May next year.

Price for strong roots, 50c each, \$3.00 per dozen.

RASPBERRIES—STRAWBERRIES—MORE RASPBERRIES

GLEN BROS., Inc., Glenwood Nursery, Rochester, N. Y.

WOODEN FARM, A. C. Loring, Prop., G. H. Instone, Mgr.

Mound, Minnesota, May 4th, 1922.

Gentlemen:—Enclosed find check for \$70.85, covering payment of trees, supplied to Mr. A. C. Loring. The trees were well packed, and came through in first class condition, and we are more than pleased with them. Thanking you for your promptness in filing the order.

Yours very truly, GEO. H. INSTONE, Mgr.

Branches of Erskine Park—Photo taken Oct. 1921

Erskine Park EVERBEARING RED RASPBERRY

The "dessert berry of the Nation."

It's delicious fruit may be picked ever day from June until frost. Think of it. Large, red, luscious Raspberries on your table every day during four months of the year and from your own garden. As late as November 20th, we have cut branches from plants growing in the nursery, with BLOSSOMS, GREEN FRUIT and RIPE FRUIT upon them. It should be planted in every garden and especially do we recommend planting the Erskine Park in large quantities where a suitable market for the fruit is available. We have a large, fine stock of 2 year old fruiting transplants for shipment at the proper time for planting this Fall.

The Erskine Park is perfectly hardy, withstanding the severest winters without injury. Plants set out this Fall will produce an abundance of fruit next summer. Price for heavy, 2 year old, fruiting transplants, \$3.00 per doz.; \$20.00 per 100; \$150.00 per 1000.

SUPERB EVERBEARING STRAWBERRIES

The Perfect Everbearing Strawberry

Mr. A. B. Katkamier, a leading Berry authority and lecturer, says, "Plant Strawberries in October." Our fine, strong plants of Superb, if planted this Fall, will produce plenty of large, red, juicy berries next summer.

A well known authority on Strawberry culture, says of Superb:—"You simply cannot keep them from fruiting from June until November unless you pick their blossoms. They are the most persistent plants in their fruiting habit, that I have ever known."

The Superb has frequently been called the early-to-late Strawberry—will fruit until ground freezes in fall. Hardy from Portland, Maine to Portland, Oregon. Strong, field grown plants ready for immediate shipment.

\$2.00 per 25; \$5.00 per 100; \$40.00 per 1000.

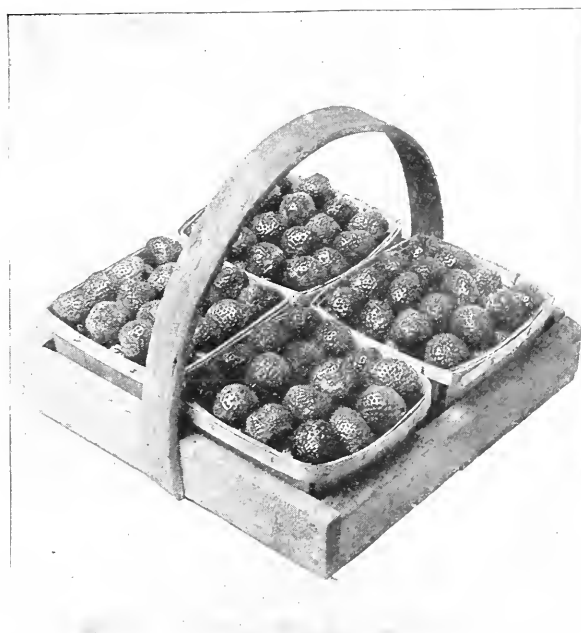

"HONEYSWEET" BLACK RASPBERRY —SWEET AS HONEY

*The berry for the Million and the Millionaire—There's a million in it.
"The business blackcap"*

The berries are the most delicious fruit we ever tasted. Ripens in July—sweet and delicious—unlike any other black raspberry. "Honeysweet" is extremely hardy, passing through the severe fruit-tree-killing winter weather of 1920-1921, without injury to a single twig on any plant in a four-acre patch. Bears every year—has never been a slacker. Large size, glossy black, delicious—the world's greatest BLACKCAP.

Many clusters of big Black Raspberries literally cover the bushes. Twelve of our vigorous, nursery-grown plants will produce many quarts of fruit next summer when you are hungry for berries. Twelve or more plants will fit into your garden nicely. No garden should be without "Honeysweet". As a dessert berry, in pies, as a canned sauce, as a jam, you never tasted anything like it before or since—truly a fruit fit for a king.

PRICE:—\$3.00 per 12; \$20.00 per 100; \$125.00 per 1000.

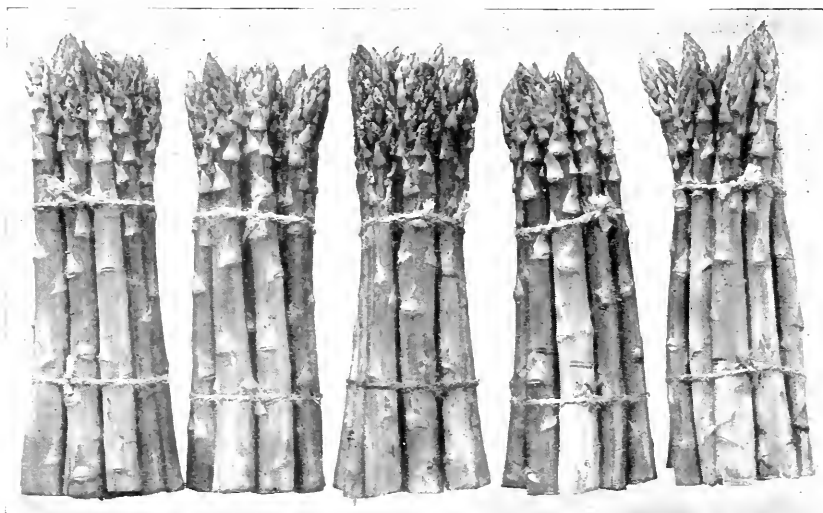

So easy to grow everybody should have his own little patch

A good cook—some large juicy Honeysweets—result some luscious pies—does your mouth water?

ASPARAGUS—DWARF FRUIT TREES—ENGLISH WALNUTS

Stock delivered in the Fall arrives in better order, because Nurserymen have more time in which to handle it; but in the Spring it comes off warm so suddenly that it is time to plant before the stock can possibly be dug, packed and delivered to all the thousands of customers scattered over the country. **PLANT THIS FALL.**

As simple to grow as 1—2—3!

PEDIGREED WASHINGTON ASPARAGUS

*The new rust resisting variety developed by the
United States Department of Agriculture*

Washington Asparagus is the first result of a blister-proof campaign for the eradication of asparagus rust and is as far as possible an extremely resistant, vigorous, and high yielding strain of giant asparagus. The plants represented in Pedigreed of the last three generations are the best found in a ten year search among millions of plants tested.

By best we mean the ones that have produced offspring uniform—rust resistant—high yielding—large size—unbranched shoots—with good top buds of rapid growth which indicates tenderness.

RUST RESISTANCE—HIGH YIELDING—LARGE SIZE— UNBRANCHED SHOOTS

Asparagus is one of the earliest and most wholesome vegetables that can be grown in every home garden. Asparagus freshly cut and promptly served is one of the most delicate, wholesome and appetizing products of the home garden. Its early appearance in the spring together with the fact that an asparagus bed when once established will produce for many years, makes it of special importance in the home as well as in the market garden and on the truck farm.

PRICE:—\$3.00 per 50; \$5.00 per 100; \$40.00 per 1000.

Fruit same size and same quality as produced by standard trees

Delicious English Walnuts from trees growing
in your own grounds

HARDY ENGLISH WALNUT TREES

For Lawn, Driveway and Orchard

If your available space is small, a few vigorous, hardy, healthy English Walnut Trees will prove valuable for decoration, shade and your household table supply. For the lawn or driveway the English Walnuts are exquisitely beautiful with their smooth, light grey bark, luxuriant dark green foliage, lofty symmetrical growth—a homeful tree for the home.

We have growing at our nurseries 50,000 hardy English Walnut Trees and have succeeded in developing a few thousand fine specimens in the larger sizes; may be successfully planted in all localities where winter temperatures are not too severe for peach trees.

For Fall planting we offer these fine trees, well rooted, with good branched tops at the following prices:

5-6 ft., \$5.00 each; \$50.00 per 12. 6-8 ft., \$10.00 each; \$100.00 per 12. For other sizes and prices, see our general catalogue.

SUPER-SIZE FRUIT TREES—PEACHES—PLUMS

DOUGLAS MACCALLUM, 10 Reid Avenue, Port Washington, N. Y.

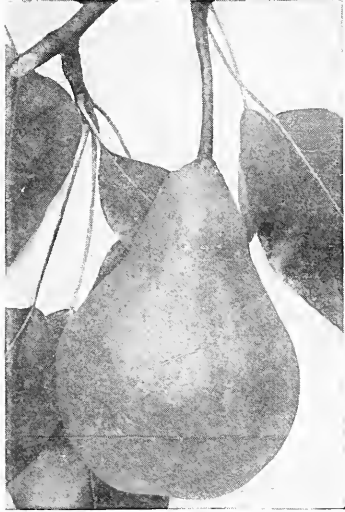

May 1, 1922.

GLEN BROS. Rochester, N. Y.

Gentlemen:—It may interest you to know that all the fifteen fruit trees supplied to me on your orders 17642 and 17387 are alive and in good condition. These planted in October last. The trees of the Tom Thumb Dwarf collection are in full bloom and will bear fruit this, their first season.

If not too late for planting this spring please send me by mail or express as you may prefer three (3) Ives grape Vines for which I enclose check for \$5.00.

Yours very truly, (Signed). DOUGLAS MACCALLUM.

A young orchard in bearing—growing into money

SUPER-SIZE FRUIT TREES

Extra Large—Extra Old

If planted this Fall many of these Trees will bear next season. For those, who want quicker results, these super-size trees meet every requirement. The trees are 4 years old, budded on imported French roots and will average 7-9 feet in height, with handsome branched tops. It has taken us four years to produce these trees—we have done the long waiting—now they are ready for sale. For quicker results plant such trees.

PRICE:—\$3.00 each, \$30.00 per doz., \$250.00 per hundred.

ROCHESTER

Earliest Yellow, Freestone Peach known

Often bears first season planted.

Over 100,000 Rochester Peach Trees were retailed in Fall 1921, and Spring 1922.

Mrs. Myra Moore, 251 Second Street, Mechanicsville, New York, writes:

"My Rochester Peach Trees I got of you 4 years ago, bore most bountifully last Fall. They paid for themselves then if they should never bear again, but I guess they will. I could not say too much in their favor."

Mr. C. E. Strawbridge, Lima, Ohio, writes, on August 26, 1920:

"On April 10, 1916, I set out one of your new Rochester Peach Trees. This year we have picked exactly 403 large Peaches from this one tree."

Mr. C. A. Hand, 2325 Broadway, Fort Wayne, Indiana, sent us a photograph of one of our Rochester Peach Trees planted by him in May, 1921. The photograph was taken May 19th, 1922 and at that time the Tree had 24 Peaches developing. Try a few in your garden or if you have space available, plant an acre. We offer splendid, well developed trees with plenty of root power, at \$1.00 each, \$10.00 per doz., \$75.00 per hundred. Larger size trees at \$1.50 each, \$15.00 per dozen, \$100.00 per hundred.

YELLOW EGG PLUM

The Largest and Handsomest Yellow Plum

Fruit 2 inches by 1 5/8 inches in size.

Tree large and vigorous, spreading.

Fruit golden yellow covered with thick bloom; skin thin; flesh, golden yellow, rather juicy and of average sweetness; mild, good. For Fall planting we offer several thousand beautiful trees, 3 years old, 5-7 feet in height, well rooted and branched, at \$2.50 each; \$25.00 per dozen.

More money per basket from Rochester Peach than any other early peach

Forget the first cost—think only of ultimate results

LILACS—BITTERSWEET—BRIDAL WREATH

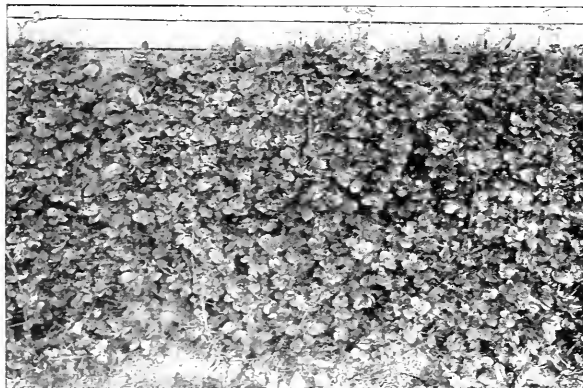

Stock planted in the Fall gets the benefit of the late fall and early spring rains which is of vital importance. On the contrary, stock set in the spring, frequently has to worry through a dry summer which it is utterly unprepared to do after having been so newly transplanted. **PLANT THIS FALL.**

A gorgeous flower show—plant more lilacs

LILAC DAY

Is an annual event in Highland Park and Rochester. Thousands come from far and near and a special excursion from Canada is run every year. It would be interesting to know just how many have seen and admired this great collection of Lilacs, the largest in this country and one of the largest in the world, surpassing that in the famous Arnold Arboretum and rivaling that at Nancy, France.

A most magnificent green foliated vine throughout the year

Flowers like these next Summer—if plants are set this Fall

LILACS EXTRAORDINARY

The biggest bundle of pleasure for Ten Dollars you ever bought

Highland Park, Rochester, New York, is world-famed for its magnificent collection of Lilacs which comprise over 250 varieties. You, who have been fortunate enough to have visited our fair City on Lilac Day and have had the pleasure of witnessing this grand display of Lilacs in bloom, will be glad to learn that it is now possible for you to procure 6 of the very choicest varieties included in this magnificent collection. You, who have not been so fortunate as to see the Highland Park display, will also welcome this opportunity of obtaining these 6 varieties for planting on your own grounds. The following collection of 6 double varieties is without a peer and we urge all, who have the necessary space for planting them, to order at once. Plants set this Fall will bloom next season.

Charles Joly, Dbl. deep red,
Comte de Kerchove, Dbl. rose,
Madam Abel Chateney, Dbl. white,

Michael Buchner, Dbl. pink,
La Tour d'Auvergne, Dbl. purple,
Seneateur Volland, Dbl. red

We offer this collection of 6 plants in extra, strong and bushy specimens, 3-4 feet in height, exceptionally well rooted, for **\$10.00**. Single plants **\$2.00 each**.

EVERGREEN BITTERSWEET

Climbing Euonymus Vegetus—Beautiful 365 Days of the Year

Particularly adapted to cover garden walls, old stumps or embankments with any exposure, but the fruiting is best when the plants receive the warm sun; the plants are strong, robust climbers and in fall and winter bear a profusion of bright red berries. The vine is covered the whole year with green foliage, and absolutely holds the color even in hottest summer or coldest winter. The plant shown in the illustration is about four ft. high, and has been cut back to the height of the foundation a number of times. The picture was taken in March last year, and at this time the vines showed many clusters of bright red berries that had been carried through the winter. Order early, last season we didn't have enough of 'em.

Price for good strong plants, **75c each; \$7.50 per 12.**

Hardy—BRIDAL WREATH—Showy

Extremely desirable—Supremely beautiful

This is one of the finest deciduous shrubs that we know of for planting about the foundations of buildings. In the early spring, the long, sweeping branches of this splendid variety are literally covered over much of their length by the small, charming double white flowers. The leaves in autumn assume brilliant tints of orange and scarlet.

This well known and popular shrub is a great favorite at "Glenwood" and attracts a great deal of favorable comment from visitors at the nurseries. We recommend it as a shrub that will give more real pleasure and satisfaction for what it costs than anything we grow.

We offer strong extra large plants which are grown expressly to produce immediate effect at **\$1.00 each; \$9.00 per dozen.**

We offer also a smaller size as described in our general catalogue at **\$.75 each; \$7.00 per dozen.**

OUTDOOR ROSES—INDOOR ROSES—CLIMBING ROSES

GLEN BROTHERS, Rochester, N. Y.

Medina, N. Y., May 1, 1922.

Dear Sirs:—The shrubs and vine ordered from you last Fall and shipped April 25 reached me the following day. They were, in all respects, the best lot of shrubs that I ever had from any source and I was immensely pleased with them. I set them out at once in the best locations and soil that I have and I am sure that they will do well.

The clump of delphinium, too, was just what I wanted for a particular place and I enclose postal order \$1.00 for that.

You may count on getting all my orders for the shrubs, trees and plants that you carry in stock.

Sincerely yours, GEORGE KENNAN.

Roses have a charm decidedly their own

JULIET ROSE

Outside of Petals, Old Gold; interior, rich rosy red, changing to deep rose as the flowers expand

Imagine a rose of old gold and rosy red, the flower large and full, of powerful and delicious fragrance, growth strong, vigorous and upright, blooming both in summer and autumn, and you have Juliet.

One of our good western customers wrote us in June last:

GLEN BROTHERS, Inc., Rochester, New York.

Concordia, Kansas, June 21, 1922.

Gentlemen:—Will you please mail me catalogue of roses, shrubs and flowers?

The Juliet old gold two year old roses I received in the spring are blooming profusely. The buds are beautiful. I shall want six of this rose for spring, and will select some others when I receive catalogue.

Yours truly, THE CONCORDIA CASH STORE CO.

We offer strong, 2 year, nursery grown plants for Fall planting at **\$2.00 each, \$20.00 per dozen.**

COLUMBIA ROSE PLANTS

In pots for indoor culture

A Hybrid Tea of wonderful blooming qualities—BLOOMS ALL THE TIME. The fragrance is beyond description, sweeter than the American Beauty. The color is a true pink about the shade of a perfect Shawyer, deepening as it opens to glowing pink. A peculiarity of this variety is that the shades all become more intense until the full maturity of the open flower is reached and this color is enduring. Thrives in any location; strong grower and soon makes a great display.

We offer for shipment, commencing October 1st and continuing throughout the winter months, strong greenhouse plants grown in 4 inch pots, suitable for indoor culture, **\$1.50 each; \$15.00 per doz., \$100.00 per hundred.**

CLIMBING AMERICAN BEAUTY ROSE

A new climber of wonderful beauty. The early fragrant flowers are of a deep rosy carmine, shaded towards the center with rich carmine crimson. Hundreds of these large rich rosy carmine blooms appear at one time and are very fragrant. The flowers are of an enormous size, 3-4 inches across and borne in great bunches. They last in perfection a long time and are followed by brilliant red berries which are carried late into the winter. The climbing American Beauty is perfectly hardy; a vigorous grower, growing in almost any situation. One plant of this rose will produce twenty times as many flowers in June, as the old American Beauty, besides blooming occasionally during the summer.

We offer for October shipment strong, 2 year, nursery grown plants at **\$1.00 each, \$9.00 per dozen.**

Place a few Columbias in your sun parlor

Climbing American Beauty—a proper name for this rose

GRAPES—ELDERBERRIES—BLACKBERRIES

Stock is completely dormant in the Fall, and therefore can be easily and safely handled, while in the Spring the weather often comes off warm so early as to start the buds seriously before the customers can receive and plant his stock. **PLANT THIS FALL.**

Nothing quite so sure to grow—nothing quite so sure to bear—nothing quite so sure to please every taste

Extra Large—IVES GRAPES—Extra Old

Big Juicy Ives Grapes For Delicious Grape Juice

Extra Heavy Four Year Old Vines—Big Fellows—Special

We receive many letters each season from customers who desire to plant an extra good grape and who want to buy plants of a larger size than those usually offered. To supply the demand we have selected the IVES as the best black grape we know of and offer this Fall a limited quantity of extra size plants 4 years old. These plants will naturally produce fruit quicker, and to those of our customers who want something real choice and fancy, we recommend these plants.

IVES was originated by Henry Ives of Cincinnati, Ohio, probably from the seed of Hartford. Its COLOR is black; BUNCH extremely large, shouldered, compact, handsome; BERRY, large, tender, juicy, sprightly vinous, rich, sweet without pulp. VINE is vigorous, healthy, hardy. In addition to all this, it is a very reliable variety and usually free from mildew or rot.

If you want a delicious Grape, plant IVES. If you want quick results, PLANT THESE EXTRA SIZE VINES.

Price:—\$2.00 each; three for \$5.00; six for \$9.00; twelve for \$15.00.

BLOWERS BIG BLACKBERRIES

Biggest and Best Money-Maker of all Blackberries

14 ft. and 1 in. extreme height of bush. 2694 berries on one bush. 2720 quarts from one-third acre; 45,307 lbs.; 943 15/16 bushels; 22 2/3 tons. \$303.10 average per acre. 153 bushels netted \$344.25 from best acre.

Plant Blowers Blackberries anywhere you would grow Concord Grapes. The season of ripening is from July 25th until frost, the bulk of the crop matures in the month of August. We have had blossoms and ripe fruit in November.

FINE TWO-YEAR-OLD TRANSPLANTS \$2.00 per doz.; \$15.00 per 100.

OUR LANDSCAPE DEPARTMENT

Let our Landscape Department solve your planting problems for you. If you have just built a new house or are planning the rearrangement of your grounds, or wish an effective grouping on any part of your grounds, you should get in touch with this Department. Through it we can undertake the planning, the arrangement and the actual planting itself without trouble or worry on your part.

Thousands of Dollars Spent With Us for Choice Ornamentals

Over sixty planting plans **MADE AND ACCEPTED, MATERIAL SUPPLIED** and in most instances the planting supervised by us during the **PAST TWELVE MONTHS**. Space will not permit mentioning more than a few of these clients:
